WARRANT FOR TOWN MEETING STATE OF NEW HAMPSHIRE

To the Inhabitants in the Town of Rollinsford in the County of Strafford, in said State, qualified to vote in town affairs:

You are hereby notified to meet at Town Hall in said Town on Tuesday, the ninth (9) day of March, next, at ten o'clock in the forenoon, to act upon the following subjects:

- ART. 1. To bring in your ballots for Town Clerk, Town Treasurer, one Selectman for a term of three years, one Road Agent, and Chief of Fire Department.
- ART. 2. To choose all other necessary Town Officers for the ensuing year.
- ART. 3. To raise such sum of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.
- ART. 4. To see what percentage, if any, the town will vote to discount all taxes paid on or before the first of August next, excepting poll taxes.
- ART. 5. To see if the voters of the Town of Rollinsford will authorize the Selectmen to borrow money in anticipation of taxes.
- ART. 6. To take the sense of the qualified voters of the Town of Rollinsford, on a Joint Resolution of the New Hampshire Senate and House of Representatives in General Court convened, as approved February 18, 1937—"Is it expedient to revise the constitution?"

ART. 7. To transact any further business that may legally come before said meeting.

Appropriations will begin at eleven (11) o'clock sharp.

Given under our hands and seal this twenty-second day of February, in the year of our Lord, nineteen hundred and thirty-seven.

RICHARD J. COLBATH,

EDWARD J. HUDON,

RICHARD T. DOE,

Selectmen of Rollinsford.

BUDGET OF THE TOWN OF ROLLINSFORD, NEW HAMPSHIRE

Respectfully submitted,

ARTHUR D. CARON,

Town Treasurer.

The undersigned auditors of the Town of Rollinsford accounts have examined the books of the Selectmen, Town Treasurer, Town Clerk, Tax Collector, Highway Agent, for the year ending January 31, 1937 and find all cash entries sustained by appropriate vouchers and castings correctly made and footings agree.

GRACIA R. NOLETTE,

EVERETT F. TOZIER,

Auditors.

REPORT OF CHIEF ENGINEER AND FOREST FIRE WARDEN

FELLOW CITIZENS:

Common sense suggests that at all times we preserve the things which are most important and beneficial. When trouble comes we turn to fundamentals. Home becomes dearer. Neighbors and friends mean more. We understand better the mission of our fire department and we better appreciate its service. In good or bad times our fire department is an imperative necessity for safeguarding life and valuable property. We can get much satisfaction and encouragement by the knowledge that we are maintaining an efficient fire department always responsive to our call. Times which suggest retrenchment call for increased safeguards. Taxes are the price we pay as citizens for the protection we get for the maintenance of an adequate and well managed fire department. Whenever we cut taxes, by reducing the fire department budget, we must reduce these efficient services to ourselves. Our public services, in proportion to their basic importance, are probably the least expensive services we buy. Let us continue to preserve and improve our fire department.

In reporting the activities, condition and equipment pertaining to your fire department, together with past performances, I will endeavor to give you a picture of your Ford truck and its equipment placed in service last May 23d. I will also recommend future necessities which would greatly increase the efficiency of the fire fighting service and benefit the townspeople as a whole.

The sum of \$700.00 was raised and appropriated to rebuild and equip the Ford for efficient service. This money

was expended by installing a water, or booster, tank of 225 gallon capacity. An all brass booster pump of 125 gallon pump capacity was installed together with two suction intake pipes of $2\frac{1}{2}$ inch size which allows for draughting from well or pool of water. Two discharge pipes from pump, one with a $2\frac{1}{2}$ inch connection and $1\frac{1}{2}$ inch fitting and the other with $1\frac{1}{4}$ in. fitting. There is also a booster line from the pump of the $\frac{3}{4}$ inch size and from this line there is one $\frac{1}{2}$ inch garden hose fitting. This truck carries at all times 225 gallons of water which can be played upon a fire by just starting the booster pump. There are 300 feet of $2\frac{1}{2}$ inch fire hose, 200 feet of $1\frac{1}{2}$ inch leader line hose and 150 feet of $3\frac{3}{4}$ inch booster line hose. There are on this truck one 24 foot extension ladder, one 16 foot roof ladder and one 7 foot chimney ladder. There are nozzles to fit all sizes of hose carried, together with hydrant gate and Y's. The truck body is equipped with side closets containing coats and boots. There are three lengths of suction hose each 10 feet long and a suction strainer. A spotlight over the cab and a siren on the front crossbar. It is provided with axes, hydrant wrenches and spanners and other handy fire fighting appliances.

This newly equipped Ford truck is now known as Engine No. 1. It has rendered wonderful service to date and many favorable comments have been received from both townspeople and outsiders, especially from firemen from neighboring departments. Your local firemen are much pleased with its capabilities. More leader line hose could be used to good advantage. We have 200 feet of this hose now but your truck should carry at least 600 feet to be efficient. A few other badly needed articles are two gas masks. We have no gas masks of any kind to protect your firemen against smoke or gas while fighting fires. Two foam tanks of the $2\frac{1}{2}$ gallon size for oil and paint fires, of which we have none. 300 feet of $\frac{1}{2}$ inch garden hose for grass and brush fires and other useful articles. Of the \$700.00 appropriation for this job \$699.95 was expended.

The insuring of your fire trucks against property damage and personal liability this past year for which the special appropriation of \$170.90 was voted at last town meeting was a sound business proposition and gave your firemen, especially the truck drivers, a feeling of security while on the highways rolling to and from a fire. This same insurance should continue for one can never foresee accidents and it well pays to be properly insured should accident occur. Continue this insurance.

By the completion of the Rollinsford grade school building and the abandonment of the old Franklin school building for school purposes one of the town's worst fire hazards has at last been removed from our midst. The new school building is beneficial to the health, happiness, fire hazard elimination as well as the more elaborate educational possibilities of all of our public school teachers and pupils. Nevertheless, proper and adequate fire drills for both teachers and pupils should be regularly maintained in this new building, same as were in effect in the old Franklin. Keep up those fire drills in the schools for some day they may be the means of saving life.

Your fire station doors are too narrow to properly allow a quick exit by your fire trucks. There is just an eight inch clearance for the trucks in the doorway when entering or leaving the station. The trucks have already hooked into the door casing and minor damage to both door jam and truck have resulted. There is plenty of room on either side of this door to widen same at least three feet giving the trucks proper clearance and making a proper exit in time of fire possible. Cannot this matter be properly adjusted? It would not necessitate the outlay of much money and would mean valuable time saved your fire department in a quick getaway when responding to fire.

While our fire loss, for the past year, has not been excessive, were it not for the firebug who ran rampant unmolested on the Walter England property off west turnpike

we would be able to report an exceptionally creditable year with but one fire wherein any property was destroyed. All loss, other than sustained by Walter England, was fully covered by insurance. The England property was partially insured. Your fire department answered 12 alarms for fire on the England property alone, three of these were improved property and nine were grass and brush. All of these fires were deliberately set and the incendiary got away after each offense and is still at large despite the fact that our sheriff, police department and selectmen were all called in to terminate the cause of these arson fires. The England property like all other property was assessed for taxes and revenue was collected therefrom by and for the town. No more taxes from this source and this loss of assessable property must now be distributed among the remaining over-taxed property owners of our town. This firebug naturally had everybody worried in the vicinity where he was operating and the insurance companies in some cases cancelled their insurance risks in that locality, while others threatened to do likewise. It is my opinion, that firebug could have been captured had the proper responsible investigating authorities exerted the effort which the seriousness of the crime demanded.

Despite the fact that home owners are continually appealed to in every known way to protect their property by cleaning their chimneys and stove funnels this continues to be one of our most serious fire hazards. Why won't people protect their homes from fire when a little time spent cleaning chimneys and funnels will eliminate these serious fire hazards? You answer this one. I can't.

While we have had many grass and brush fires the past year due to various causes we have been fortunate, partially due to a kind Providence, in escaping serious loss as the result of these fires. A large number were of incendiary origin on the property of one taxpayer. The worth and ability of Engine No. 1 was demonstrated at many of these

fires. 225 gallons of water for instant use at grass or brush fires is no mean asset, especially when no other source of water supply is available. Ask any of your firemen what they think of Engine No. 1, they can and will tell you what it means to them and the town.

Our townspeople have well complied with the state law requiring permits to kindle fire this past year and they were wise in so doing, but, there are still a few unwise ones who persist in burning without the lawfully required permit and they alone will be wholly to blame and responsible if for any reason they become negligent or violate the lawful requirements pertaining to fire permits. Think it over carefully before kindling a fire without the legal fire permit.

Your fire department was never in better condition to cope with fire than it now is. The apparatus is so constructed and equipped today that it is quite immaterial whether the fire is within reach of hydrants, brook, river or some other source of sufficient water supply to fight fire. Our pumps can and will do the work provided the water supply is sufficient and handy. And what is more important we are now in a position wherein, by the use of 1½ inch leader line hose and ¾ inch booster hose, we are enabled to conserve much water that would otherwise be wasted if required to use the larger 2½ inch hose and at the same time lessen the water damage to the inside and contents of a building. More leader line hose is therefore one great necessity to help complete our practical fire fighting unit. We do not claim perfection but we know that we are now in a position, thanks to the financial cooperation of our fire minded public, to satisfactorily demonstrate the results of our taxpayers' determination to build and maintain an efficient and dependable fire fighting unit. And Mr. Taxpayer you have got it.

It is our proud privilege this year, as usual, to report a balanced budget. In other words your fire department appropriations have not been overrun. It is now, and always

has been, our ambition to maintain a pay-as-you-go policy and that is made possible only by appropriating sufficient funds to properly meet your fire department bills. There is no use in "kidding" ourselves when appropriating money for this or any other department, because if sufficient money is not available to meet the necessary bills, then, the budget must be exceeded.

For the ensuing year the regular maintenance appropriation of \$800.00 should be raised and appropriated to properly meet the necessary routine bills. Then the truck insurance premium should be voted and raised if the town desires to maintain truck insurance. It was \$170.90 last year. In addition to the above the sum of \$350.00 for new hose, gas masks and fire foam extinguishers is recommended and solicited for future efficient fire protection.

It is only by working together, as a unit, for our town's benefit that we may all prosper and succeed. And it is with the best of wishes for a prosperous New Year for all our townspeople that I desire to thank all who have in the past, in any way, assisted us to build up to the degree now established.

THE ROLLINSFORD FIRE DEPARTMENT

RAYMOND C. CHASE,

Chief Engineer, Forest Fire Warden.

Respectfully submitted, Jan. 31, 1937.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

TO THE SCHOOL BOARD AND CITIZENS OF ROLLINSFORD:

I again take pleasure in presenting an annual report, which is my ninth. We are now in full operation in the new building. What this change has meant in attitude and spirit no one but the teachers fully realize. The many commendatory remarks heard during the time of its formal opening should be pleasing to the building committee.

The enrollment for 1935-36 was 127, as a glance at the comparative statistics will show. This was an increase of nine over the preceding year and the enrollment at the time of writing is 132. Nine pupils were graduated from the eighth grade in June. No Citizenship medal was given by the Sons of the American Revolution, but Marjorie Nolette received the Scholarship Medal for girls and Stanley Coffin received the one for boys, both presented by the William Martel Post of the American Legion. Eighteen pupils are attending Berwick Academy. Twenty-eight are attending Dover High School. It is worthy of note that of the number at Dover High who prepared in the Franklin School, not one is failing.

The closing of the Sullivan and Pear Yard schools caused two teachers to be released in June. Miss Catherine Redden was elected to a Dover position and Miss Mary Willard was elected to a position in Milton. Miss Martha Flanagan was transferred to Grade 5 and 6 at the Franklin School and we regretted to release her at the Thanksgiving recess because of her marriage. Mrs. Mabelle Stevens, a former South Berwick teacher, was engaged to take her place.

This year, at last, the Red Cross is furnishing a few bottles of milk to those pupils who need it. No federal funds

will be forthcoming for that purpose this year. The Red Cross is commended for its efforts.

Again Miss Margaret Thomas has been employed at federal expense to teach adult evening classes, primarily for Naturalization purposes. The men and women are faithful in attendance and the enrollment is about twenty-five. It is a pleasure to visit these classes and observe the progress made. The pupils are interested in their work and the project is certainly worth while.

No reorganization of the schools is contemplated at this time. I wish that music might be put back into the curriculum, since we have such a fine chance to get the most out of it. My present Durham Supervisor could easily take over the teaching here and since only one building would have to be visited the expense would not be great. We anticipate no increase in our budget.

The teachers deserve public recognition for giving their time and energy during the Christmas vacation in helping to move into the new building. Every piece of furniture and equipment was tagged at the Franklin School and so readily placed in the new building.

Mr. John Tighe, in memory of his sister, Miss Helen Tighe, who taught school in Rollinsford from 1905 to October, 1920, gave the flag and flag pole for the new building and a suitable flag raising ceremony will be held in the near future. The Building Committee, especially its Chairman, Mr. William S. Leonard, deserves commendation for giving so generously of time and effort to the New building. The School Board has made sacrifices of its time also, for which its only reward will be satisfaction in a good job well done.

I appreciate the support given me by School Board and Teachers and ask for us all the continued support of the citizens.

Respectfully submitted,

HOWARD L. WINSLOW,

Superintendent.

REPORT OF SCHOOL NURSE

TO SUPERINTENDENT WINSLOW AND MEMBERS OF THE SCHOOL BOARD:

This report embodies my activities during school year 1935-1936, covering these schools—Franklin, Sullivan, Pear Yard and Parochial.

Number of pupils	212
Total number of visits to schools	154

WORK WITH PUPILS

Physical examinations	212
Individual inspections	212
Classroom inspections	147
Pupils taken to M. D. for inspections	4
Pupils weighed and measured	212
Eye tests	212
Hearing tests	212
Treatments in school	72
Treatments at home	12

DEFECTS FOUND

Malnutrition, 2; vision, 13; hearing, 4; nervous disease, 1; skin disease, 8; pediculosis, 4; teeth, 52; tonsils, 32; defective breathing, 4; enlarged glands, 3.

EXCLUSIONS FROM SCHOOL

Pediculosis, 4; impetigo, 7; sore throat, 5; pink eye, 2; scabies, 5; ringworm, 2; nervous disease, 1; sprained ankle, 2; Temperature, 3; cuts and abrasions, 6; contagious diseases, 14; rash, 4; infected heel, 1; infected finger nails, 9.

Clothes were collected and placed where they could be used.

Two children were taken to Manchester to a Skin Clinic and one to a bone specialist, Dr. Jones at the Eliot Hospital.

Through the Red Cross and State Welfare, milk was distributed at the Parochial and Public schools during the winter of 1936.

One pupil was transported three times to Dover Tuberculosis Clinic and X-rays were taken by Dr. Chesley.

Health posters and stories were distributed to the schools.

The school health program has for its three main objects, the protection of health, the correction of defects, and the promotion of sound health habits and practices.

Respectfully submitted,

CHERRY BLEAKNEY,

School Nurse.
